

Webinar: Enhancing heating & cooling strategies at local level

Tuesday, 24 May 2016, 11 :00 – 12 :30 CET

Heating and cooling are intrinsically local/regional matters. Despite the very positive signals for the take-off of renewable heating and cooling provided by both EE and RES directives, many barriers remain for achieving the goal of high levels of renewable heating and cooling by 2020. This webinar will share insights, tips and tools, and success stories on increasing the diffusion of sustainable district heating and cooling strategies in Europe, at local and regional level.

Programme

Moderator : Giorgia Rambelli, ICLEI Europe

11:00 – 11:05 Welcome

11:05 – 12:00 **Success stories, tips and tool for local governments:**

- Tapping the potential of heating and cooling in Europe – *Erwin Cornelis, VITO - STRATEGO project*
- Increasing the diffusion of smart and flexible RES district heating and cooling systems (high-RES DHC) – *Paul Kenny, Tipperrary Energy Agency – SmartReFlex project*
- Smart, holistic approaches for district heating and cooling solutions – *Maja Högvik, City of Gothenburg – CELSIUS project*
- Handbook for local governments – *Miriam Badino, Metropolitan City of Genova (TBC) – Mayors in Action project*

12:00 – 12:25 Questions & Answers

12:25 – 12:30 Wrap up and upcoming opportunities
